Bincang SOP haji, umrah 9 April

Putrajaya: Menteri di Jabatan Perdana Menteri (Hal Ehwal Agama), Datuk Dr Zulkifli Mohamad Al-Bakri akan mengadakan perbincangan lanjut dengan kerajaan Arab Saudi berhubung syarat, khususnya penyelenggaraan termasuk prosedur operasi standard (SOP) bagi jemaah haji serta umrah tahun ini yang dijangka pada 9 April ini.

Katanya, pada pertemuan itu nanti, beliau akan memuktamadkan memorandum persefahaman (MoU) yang dime-

terai Perdana Menteri, Tan Sri Muhyiddin Yassin sebelum ini untuk memudahkan proses pra pelepasan jemaah haji dan umrah dari Malaysia.

“Perbincangan itu nanti turut membabitkan sama ada kerajaan Arab Saudi membenarkan kuota penambahan 10,000 jemaah haji tahun ini,” katanya kepada pemberita pada Majlis Penyerahan Sumbangan Kurma Ajwa dan Air Mineral di Masjid Mahmoodiah Presint 18 di sini, semalam.

Turut hadir, Pengarah

Jabatan Agama Islam Wilayah Persekutuan (JAWI), Datuk Mohd Ajib Ismail dan Pengerusi Eksekutif Kumpulan Brahim's Dewina, Datuk Seri Ibrahim Ahmad.

Sumbangan kurma dan air mineral itu disumbangkan Syarikat Kumpulan Brahim's kepada 127 masjid dan surau di Lembah Kelang termasuk masjid-masjid bawah kelolaan Jawi, Jabatan Kemajuan Islam Malaysia (Jakim) dan Jabatan Agama Islam Selangor (Jais) sempena Ramadan.

MAIS sasar kutipan kempen Jom Bersedekah RM4 juta

SHAH ALAM – Majlis Agama Islam Selangor (MAIS) menyasarkan kutipan RM4juta menerusi kempen Jom Bersedekah untuk Tabung Amanah Anak Yatim Se-

langor pada tahun ini.

Pengerusi MAIS, Tan Sri Abdul Aziz Mohd. Yusof berkata, tahun lalu pihaknya meraih lebih RM3 juta menerusi kempen tersebut.

"Kita harap keadaan ekonomi bertambah baik tahun ini dan membolehkan orang menderma.

"Lebih banyak dapat, lebih lagi dapat memberikan sumba-

ngan seperti bantuan bulanan, persekolahan, makanan dan hari raya (Aidilfitri)," katanya pada sidang akhbar selepas pelancaran kempen Jom Sedekah ke dalam

Tabung Amanah Anak Yatim Selangor di sini semalam.

Sumbangan boleh dibuat secara online di <http://fpx.mais.gov.my/epay/say.php>.

The height barrier in Jalan Aman, which was damaged a couple of days ago. – Photos: SS KANESAN/ The Star

By **VIJENTHI NAIR**
 vijenthi@thestar.com.my

SUBANG Jaya City Council (MBSJ) is looking into the placement of height barriers after several incidents of such structures being knocked down.

Although they were erected to prevent heavy vehicles from using certain routes, many often drive under them anyway, causing damage and requiring frequent repairs or even replacements.

Initially, there were three height barriers along Jalan Usaha to protect the gas pipelines running underground, while two each were installed at Jalan Aman and Persiaran Setia following requests from residents.

From the seven height barriers, only two remain — one on Jalan Usaha and another on Jalan Aman. Subang Jaya assemblyman Michelle Ng said MBSJ Engineering Department officers had agreed to meet with her and area councillors to discuss the matter.

"In the latest incident on March 14, one of the height barriers was damaged along Jalan Aman.

"Prior to that, on March 10, a lorry hit one of the barriers on Jalan Usaha, causing it to collapse on a car which was an MPV," she said.

Signage ignored

Ng said there was adequate signage to warn motorists of the 2.1m height limit ahead, but accidents still happen.

"We will be looking into the possibility of moving the barrier to a better location and to warn motorists of the height limit at a more strategic site so they can make a U-turn, if needed.

"MBSJ engineers will have to advise on whether this is feasible.

"We will also be looking at the possibility of installing a surveillance system, such as closed-circuit television cameras to catch the culprits who have been damaging the height barriers," she said.

Ng said the city council had experimented with different designs and improved the quality of barriers over the years, but it had not stopped the problem of the structures being knocked down. The culprits knocking into the height barriers had been getting away with it, she said, and the city council had to bear the cost of repairs.

"For the first time, MBSJ will be claiming damages for the collapsed height barrier in Jalan Usaha from the lorry's insurance company. "But this will take time. So, the city council will have to pay for the repairs first," she added.

MBSJ was asked about the cost of repairing these barriers, but had yet to reply to *StarMetro* at press time.

Height barriers no obstacle for many heavy vehicles

Subang Jaya council considers CCTV cameras as possible deterrent

Jen Uyin: Once a height barrier is knocked down, all heavy vehicles will be able to use the stretch.

Jason: Residents want the agreement for there to be a height barrier in Persiaran Setia honoured.

Once too often

MBSJ councillor Lee Jen Uyin suspected that the "accidents" might be either acts of defiance by motorists or those trying their luck.

She said this was because once the height barrier was knocked down, all heavy vehicles would be able to use the stretch for at least a couple of months while the city council went through the process of applying for funds and appointing a contractor to conduct repairs.

"That is the case at Persiaran Setia. It is a shortcut between Batu Tiga and Subang Jaya.

"Batu Tiga is an industrial zone and many heavy vehicles move in and out of the area.

"Jalan Usaha runs between USJ 12 and USJ 16, and offers a faster connection between Subang Jaya and Shah Alam.

A trailer on Jalan Aman turning back around after discovering a height barrier along that stretch.

The remnants of the height barrier along Jalan Aman that was damaged and removed.

"The alternative route via Persiaran Kewajipan is longer. "The frequency of the barriers being hit on both roads makes one wonder if they were truly accidents.

"Jalan Aman is located further away from the industrial area and the height barrier was safe until last month," she said.

Jen Uyin said it was common to see lorries squeezing under the barriers, sometimes the margin of clearance could be as little as 2cm.

"Some make it through successfully, while others damage the structure in the process.

"It only takes a few lorries to hit a barrier to bring it down completely," she pointed out.

Residents' frustrations

Residents, especially those along Jalan Usaha, are frustrated with the frequent accidents that often cause traffic to build up.

USJ 12 Residents Association committee member Izzaham Idris, 55, said Jalan Usaha was heavily used during peak hours and residents would be caught in a traffic jam whenever these accidents occurred.

He said MBSJ should look into other ways to ensure that the height limit was adhered to.

"The road is a short cut for motorists travelling between USJ 16 and USJ 12. There are many signboards to warn about the height barriers ahead but some drivers of

heavy vehicles still force their way through.

"There are alternative routes for heavy vehicles via Persiaran Kewajipan but drivers prefer to use the shortcut through residential roads," Izzaham added.

Former USJ3ABCD neighbourhood watch chairman Jason Lee said the installation of a height barrier on Persiaran Setia was one of the conditions agreed to before the construction of the flyover connecting USJ Heights to their neighbourhood.

"The residents want the agreement honoured, as they knew the opening of the flyover would lead to an influx of heavy vehicles despite there being alternative roads the drivers could use," he said.

Avenue USJ3B & 3D deputy chairman JM Noel said they last met council officers a couple of years ago to ask that the damaged height barriers be replaced.

"The barrier along Persiaran Setia has been knocked down at least three times.

"At the meeting, the local council officers informed us that it was very expensive to replace the barriers repeatedly, so they installed speed breakers instead," he said.

USJ3A committee member Cheah Thiam Swee wondered if action had ever been taken against heavy vehicle drivers or their companies for damaging the height barriers.

"The culprits should be held responsible for the damage caused," he said.

Making library a second home

Selangor MB launches latest facility to be upgraded under programme in Sabak Bernam

Amirudin and Masdiana (next to him) going through some reading materials after launching the upgraded library in Dataran Sabak. Looking on is Suzliana. — Bernama

By FARID WAHAB
 faridwahab@thestar.com.my

A TOTAL of 60 public libraries in Selangor have been upgraded since 2009.

Selangor Public Library Corporation (PPAS) deputy director Suzliana Abdul Hamid said this was done under a rebranding exercise with the tag line “Second Home”, aimed at encouraging more people to use the facility.

“We wanted more people, including those who normally would not visit libraries, to drop in.

“In the rebranding exercise, we focused on four key aspects, namely the library as a learning centre, meeting place, recreational venue and for human development.

“We then prepared facilities such as meeting and discussion rooms

in addition to providing free WiFi for a more conducive environment,” she said.

Suzliana noted that to date, the Sabak Bernam district had the highest number of public libraries in the state with 26. They include nine that are currently being upgraded.

These include the main library in the district as well as those in Pekan Sekinchan, Pekan Dataran Sabak, Desa Parit Baru, Desa Binjai Jaya, Desa Parit 14, Desa Parit 8, Desa Bagan Terap and Desa Kampung Banting.

“Selangor currently has 103 public libraries,” said Suzliana when met at the launch of Perpustakaan Awam Dataran Sabak in the district.

She said the library, which was opened to the public in 2005, went

through an upgrade in 2019 with an allocation under the 11th Malaysia Plan.

Menteri Besar Datuk Seri Amirudin Shari, who was present with his wife Datin Seri Masdiana Muhamad, said it was important to change the perception that libraries were boring places.

“Libraries should serve as a focal point for the community.

“It is important that libraries are given equal attention alongside other public facilities,” said Amirudin.

Also present were Selangor Secretary Datuk Nor Azmie Diron, state assembly Deputy Speaker Hasnul Baharuddin, Sabak assemblyman Ahmad Mustain Othman, Sabak Bernam District Council president Azman Dahlan and PPAS board member Saari Sungib.

Taman Eng Ann morning market traders, customers given face shields

KLANG Municipal Council (MPK) president Dr Ahmad Fadzli Ahmad Tajuddin gave out some 300 face shields to traders and customers at the Taman Eng Ann morning market in Lorong Kasawari, Klang.

“Sri Kota Specialist Medical Centre (SKSMC) sponsored the equipment,” he said.

SKSMC director Tan Suet Guan noted that face shields gave wearers greater protection.

“They are also reusable,” she said.

SKSMC chairman Dr Nick Low said face shields were effective in curbing the spread of Covid-19 as they extended below the chin and above the forehead as well as covered the ears.

“We see many people pulling down their face masks while speaking but this does not happen with face shields.

“People are comfortable wearing

Ahmad Fadzli handing over the components for a face shield to a trader at Taman Eng Ann morning market in Klang.

them and can see each other's facial expressions that allow for better understanding during a conversation,” he added.

MPK councillor Low Kwee Sia, who oversees Taman Eng Ann, said customers and traders were grateful for the added protection.

SOCIOECONOMIC STABILITY

IMPROVE ZAKAT MANAGEMENT

IN Malaysia, zakat distribution has a positive, but small impact on aggregate consumption. It should cover other forms of monetary aid that can generate a continuous flow of income for recipients. Recently, there were improvements in the form of business capital, business tools, business financing and working salary.

When managed properly, zakat has the potential to help achieve national development goals, i.e. economic empowerment. In Indonesia, the United Nations Development Programme (UNDP) began harnessing it for Sustainable Development Goals (SDG) projects by partnering with Baznas, the national zakat collection body. The latest is a partnership to support Covid-19 economic recovery.

The potential size of the annual zakat pool was estimated between US\$200 billion and US\$1 trillion by the

World Bank and Islamic Development Bank Group (IDBG) in 2016. And the aggregate resources pooled together from the potential zakat collection in 17 Organisation of Islamic Cooperation (OIC) countries will be enough to fund resources for poverty alleviation in all OIC countries combined.

Besides providing shelter, food, clothing, medication, education and transportation, we need to empower the beneficiaries (asnaf). Empowerment should include mentoring and strengthening self-confidence. There is room for improvement.

Zakat institutions need to be expanded and enhanced to build a new dimension, especially in zakat distribution, so that it becomes competitive locally or even globally. Effectiveness of zakat management relates to the distribution mechanism, the quality and professionalism of the administrator and transparency in the governance and the institution itself.

For example, the latest report in the Pusat Pungutan Zakat (PPZ) website is from 2018. While the amount collected is shown, how much was distributed through the various schemes was not reported.

Additionally, zakat is administrated by the Islamic Religious Council (IRC) in every state and is responsible for determining the asnaf qualification and the type of relief. It may not be wise for each state to have its own strategies and mission, which may lead to duplications.

We also need contemporary Islamic perspectives. Even for muallaf (one of the asnaf), there are many interpretations. Can we have a new discourse on zakat management? Should we have only one zakat management instead of one in each state?

We need the concurrence of the Conference of Rulers to save time, effort, manpower and reduce duplication. There will be more money

available that can be distributed and a standard comprehensive priority assessment system introduced.

"Indeed, the wasteful are brothers of the devils, and ever has Satan been to his Lord ungrateful" (Quran Al-Isra 17:27). The principle of sustainability includes active participation of all sections of the community in all aspects and creating an ecosystem that will benefit all.

Invite big and successful Muslim businesses, universities, top motivational speakers and business coaches to assist. All states must cooperate. For example, Selangor can provide a piece of land for asnaf in Klang Valley or from other states to carry out business activities in a central location.

It has to be high value-added, high gross margin projects and synergistic where economies of scale can be achieved. It can be a self-contained township that could, with proper planning and sincere efforts, later

transform into an industrial and/or technological hub.

There needs to be proper planning, implementation, monitoring and periodic assessment. Management will be selected from the present crop of administrators and guided by successful personalities to upgrade managerial and financial literacy.

I'm very sure there are many who are willing to help. Where necessary, get assistance from international bodies like UNDP. Between 2015 and 2020, KL (PPZ) and Lembaga Zakat Selangor collected more than RM8 billion. Nationwide, the figure is much more.

Let us be more focused and improve on accountability to make the zakat institution a success in achieving social and economic stability.

ECRL: Selangor govt prefers southern alignment

The Selangor government is still maintaining its stance in choosing the southern alignment for the East Coast Rail Link (ECRL) project in the state, compared with the proposed northern alignment, said Menteri Besar Datuk Seri Amirudin Shari on March 31.

He said that the southern alignment (Hulu Langat-Sepang-Westport) was chosen because it would open more new economic areas, apart from avoiding disruption to water catchment areas around the Selangor River Basin and land acquisition issues, as well as population relocation in areas involved in the proposed northern alignment (Gombak-Serendah-Port Klang).

“The northern alignment has many incomplete things [to resolve], such as land acquisition and the relocation of some residents in Kampung Keretapi, Ijok. It will take time,” he added.

Tajuk Berita	:	Dzulkefly: Selangor government launch POIS to avoid work place cluster, urges staff who in work place comply with SOP
Muka Surat	:	6

(沙亚南1日讯)随着国安会解除30%行政及管理人员居家工作令，雪州冠病抗疫特工队主席拿督斯里祖基菲里认为，雪州政府推动的POIS（预防和早期发现热点的爆发）措施，是防控职场感染的最佳方案。

根据《当今雪州》报道，他今日指出，工厂和职场在POIS机制下成立的抗疫委员会，除了时刻提醒员工需遵守

祖基菲里：雪推POIS防職場感染 促回公司上班員工守SOP

防疫标准作业程序，也能监督职场的防疫作业和情况。

他表示，POIS系统落实系统化的分工制度，减少员工之间的接触和降低交叉感染风险。特别是当职场出现超级传染者时，该人士因为减少了与同事的接触，所以不会传染到

其他接触者。

强制定期快检

他说，POIS机制也强制雇主需对员工展开定期抗原快速检测（RTK-Ag），除了能节省检测费，也能帮助雇主对疫

情变化有迅速应变能力。

也是希盟时期卫生部长的祖基菲里指出，POIS系统下的一步签到（SELangkah）系统，能在出现职场感染时，有效追踪和侦测到有风险的接触者。

他表示，国安会允许私人界让所有员工回去职场上班，是一项复苏经济的举措，因此促请所有回去职场上班的员工，都应严守防疫措施。

Muka Surat	:	4

阿米鲁丁(右2)为雪州食物篮援助计划主持推介仪式。右为罗兹雅。

雪120万用户申请I-Sinar 多数用于偿还债务

莎阿南1日讯 | 雪州大臣拿督斯里阿米鲁丁透露，根据公积金局汇报，雪州有120万用户申请I-Sinar计划，逾90%申请获批准，唯部分申请者其实主要用来偿还债务。

他指出，有关措施短期来看，可舒缓公积金会员燃眉之急；从长期来看，其实治标不治本。因为，当中大部分用途是用于还债。「根据上述情况，低收入群体在疫情影响下而欠下债务，B40群体因债务而下降为B20群体，甚至有些沦为最低收入的B10群体。」

他说，有鉴于此，雪州政府连续推出多个经济援助配套，以及提供「食物篮计划」，目标乃协助组屋住户和公交司机舒缓经济负担。

他表示，州政府会继续关注低收入群体，并预估疫情不会持续太久，唯经济领域所承受的影响，预计要到2024年才

能恢复正常。

阿米鲁丁是在主持雪州食物篮援助计划，颁发援助食物予雪州德士和学生巴士司机后，在仪式上致词时，作出上述发言。

另外，阿米鲁丁表示，雪州病例连续几天缓和，昨天则轻微反弹，这是因为其中几个县市持续维持高病例，特别是巴生、乌冷和八打灵三县。「这3个县一直维持高病例，主要是因为经济活动繁忙和工业区林立。随著连续落实行管令和有条件行管令，疫情才稍微缓和。」

他指出，目前的疫情和行管令期间相比，确实已经有所改善。唯州政府一直积极关注，不曾低估疫情对民间经济的影响。

「州政府在推出经济援助配套后，也在评估经援计划在长期和短期影，对民众的影响和所取得效益，不断改善以确保真正帮助人民。」
